

WHARETOA GENETICS

Superior Genetics for Greater Profitability

ON FARM AUCTION Friday 15th December 2023

Commencing at 12pm • Inspection from 10am
Ram Auction Sale

Wharetoa Terminal ▪ Meatmaker

TERMINAL & MATERNAL

Welcome

Welcome to Wharetoa Genetics 23rd On Farm 2 Tooth rams Auction.

We continue to strive to breed Maternal and Terminal rams that will provide the genetics to maximise the profitability of your sheep farming business.

This year we have rebranded our SufTex and SufTex x Meatmaker rams as **WHARETOA TERMINALS**. This will create less confusion as the majority of our SufTex Rams now have a % of Meatmaker in them.

All rams are assessed for for IMF (Intra Muscular Fat) on a scale of 1-5. 1 is the best. IMF gives an indication of the eating qualities of red meat.

All rams - Maternal and Terminal, have been DNA tested for the MYOMAX meat gene:
MYOMAX GOLD is 2 copies of the gene
MYOMAX is 1 copy of the gene

Some Maternal rams have the GTGDF9 (GTF9) fertility gene. 1 copy of this gene in females will give a 20% increase in lambs born.

The Wharetoa Maternal Rams have been tested for methane emissions. They have a BV for PACCH4. The lower the BV, represents lower methane emissions.

Sadly SIL considers wool has no economic value, so it is not included in the calculation that makes the index.

Good rams are an investment and add value to your business.

Genetics and management contribute 50/50 to your flocks performance. The performance potential of your flock is governed by genetics, the level to which that potential is captured is governed by management.

We thank you for your ongoing support and wish you and your family a happy and safe festive holiday period.

Regards and best wishes

Garth and Chris Shaw

Breeding Objectives

Our breeding objectives are based on profitability for the commercial farmer.

We use all the science and technology available to us, along with robust stockmanship to breed Terminal and Maternal rams to return our clients maximum profit.

We focus on Meat and Growth traits because at present the biggest financial return is from fast growing and high meat yielding lambs.
